

Certification "First AID" CPR and AED

What would you do if someone collapsed in front of you?
You don't have to be a professional to save a life

Do you want to:

- Learn First Aid in order to help an adult, child or infant at risk?
- Know the tools to practice CPR and use an AED?
- Know what to do in case of a drug overdose?
- Have the knowledge to act when choking on an object?
- Know what are the strategies to avoid drowning?

In 1 session of 4 hours, you will learn to:

- CPR (Cardiopulmonary Resuscitation)
- Using an AED (Automated External Defibrillator)
- drug overdose
- Obstruction or choking
- Water safety
